

MAGNUM

Management & Services Private Limited

An ISO 9001 : 2008 certified Company

ABOUT US

We take this opportunity in introducing ourselves as a professional services provider. Incorporated in the year 2010, we are an ISO 9001:2008 certified company and based out of Mumbai. Our organization was formed by group of professionals from different segments of the Service Industry and having good experience in their respective fields.

Being a young and dynamic company, we pride ourselves as one of the most reputable service providers in India and we are powered by a dedicated team with a singular passion for providing the best of services. Our services are specially tailored to cater to all the sectors.

The quality, safety and environment management models that we subscribe to, have ensured that we not only meet customer needs, but we also meet their expectations and their preference. We focus on being a single-source solution provider to every requirement in the various areas of customer needs. We have designed our systems to eliminate all possible variations in service quality and this alone is the most efficient way of improving the services we provide. These systems work together to create a process that is efficient and responsive to customer wants.

Our helpful teams are always available to assist customers. We pride ourselves on providing efficient and professional services, suited to respond to the individual needs of our esteemed clients.

OUR VISION

To build the best team, equip them with the best tools and deliver to our customers & clients world class, error free services.

Our Mission

To be India's top most service providers in terms of number of clients, customer satisfaction & customer relation.

OUR VALUES

We respect and value the people in our organization who are our real strength. Honesty and integrity are the most important values of each of our employees and we believe that there are no second chances in trust and honesty. We are accountable to our clients, our organization, our teams and others who depend on us.

SURVEILLANCE EQUIPMENTS

Electronic Surveillance is also one of the principal weapons in the protection of a defensible space. Criminals are least likely to act when there is a substantial risk of their actions being witnessed. Environments in which legitimate occupants can exercise a high degree of visual control have the greatest likelihood of criminal activity being observed and reported.

In today's times it is not sufficient to only have a basic alarm that sounds off upon intrusion of a property or to have only gated access to any property, but need to be aware of what is going on at all times. In order to be in complete control of the property and make sure that everyone gives it the respect that is required, it is extremely essential to invest in electronic surveillance equipment. You need to have eyes and ears all over so you can protect your property and its occupants, business and yourself from any misunderstandings or opportunists.

You never know when a situation is going to occur and therefore having electronic surveillance equipment in place can improve your environment. If you have surveillance equipment on your property, keeping track of everything, you can use that as evidence and also help preserve your integrity, reputation and peace of mind.

We offer services for the installation and maintenance of electronic security and monitoring equipments such as Closed circuit television, various Electronic Access controls and Trackers including RFID.
